

**Notification of Hearings under Rule 13(6) of the Infrastructure Planning (Examination Procedure) Rules 2010**  
**DOGGER BANK SOUTH OFFSHORE WIND FARM PROJECTS**  
**PLANNING INSPECTORATE REFERENCE NUMBER: EN010125**  
**Sections 91 and 92 of the Planning Act 2008**  
**Notice of Preliminary Meeting, Compulsory Acquisition and Issue Specific Hearings**

NOTICE IS HEREBY GIVEN that, at the dates, times and location set out below, the following Hearings will be held by the Examining Authority (on behalf of the Secretary of State for Energy Security and Net Zero) in respect of the application by RWE Renewables UK Dogger Bank South (West) Limited and RWE Renewables UK Dogger Bank South (East) (“the Applicants”) (registered office at Windmill Hill Business Park, Whitehill Way, Swindon, SN5 6PB) for a Development Consent Order under sections 14, 15 and 37 of the Planning Act 2008 (“the Act”).

The Application (Planning Inspectorate reference number: EN010125) was submitted by the Applicants to the Secretary of State c/o the Planning Inspectorate on 12 June 2024 and accepted on 10 July 2024. The Examining Authority was appointed on 11 September 2024 to examine the Application.

**SUMMARY OF THE PROJECTS**

The application is for an order to grant development consent for construction, operation, maintenance and decommissioning of the Dogger Bank South East (“DBS East”) and Dogger Bank South West (“DBS West”) offshore wind farms, both located in the North Sea on the Dogger Bank (together referred to as “the Projects”) and the associated development to connect the proposed offshore wind farms to the national grid. The Projects would have a combined maximum number of 200 turbines. The offshore array areas for DBS West and DBS East are situated at a minimum of 100km and 122km from shore respectively. The proposed onshore works consist of installation of buried onshore export cables from a landfall on the East Riding of Yorkshire coastline near Skipsea to (up to) two newly constructed onshore converter stations near the hamlet of Bentley, before onward onshore cable routeing to the proposed Birkhill Wood National Grid substation close to the existing Creyke Beck substation.

Maps showing the onshore and offshore locations of the wind farms and associated infrastructure form part of the Application (examination library references APP-008 for the onshore location plan and APP-007 for the offshore location plan), which can be viewed on the Planning Inspectorate’s website under the documents tab:

<https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010125>

As the proposed wind farms will have a generating capacity in excess of 100MW, the Projects are classified as a Nationally Significant Infrastructure Projects (NSIPs) pursuant to sections 14(1)(a) and 15(3) of the Act. Development consent is therefore required for the Projects.

The Development Consent Order would, if granted, authorise the compulsory acquisition of land, interests in land and rights over land, and the powers to use land permanently and temporarily. The Development Consent Order would also authorise alterations to the public

highway network, the construction of temporary construction and permanent access routes, the temporary stopping up and / or management of the public highway, public rights of way and street works, and the application and / or disapplication of legislation.
